Explains the principles and practice of IFRS including IAS, accounting and disclosure

Whether Finance Directors like it or not, IFRS and IAS are here and everybody involved in the financial running of a business - not just FD's and accounts executives but other directors and professional advisors - have to be up to speed. This guide explains the principles of IAS and the accounting and disclosure agreements, and clarifies practical problems of compliance.

This guide contains chapters on:

- Why IAS is needed
- Ideas and concepts
- Key terms
- Required accounting/ disclosure
- Problem areas and questions to ask
- Objectives and further definitions

Market

Finance Directors, Company Secretaries,
Accounting staff, Senior Executives, Lawyers,
Accountants, Bankers.

Author:

Ralph Tiffin is a mechanical engineer who subsequently qualified as a Chartered Accountant and became manager in one of the largest international firms of accountants. He is now managing partner of an accountancy and consultancy practice. He has a wealth of experience with companies of all sizes in the UK and overseas. Work typically involves developing clients reporting and management systems along with appropriate management training and developing project appraisal processes and the spreadsheets. Ralph is also author of *The Finance and Accounting Desktop Guide* (Thorogood).
